

Link printing with document management

If you want to report the corporate tax report to your customer, you can print this out from Venb. Have Superfisc included directly in Adsolut's document management. To do this, choose **Export to DMS in the selection screen.**

In this way, this printout will be linked as a PDF to our Tax File.

Exercise

- Import figures into Superfisc Corporate Tax • Divide the result • Send the result distribution back to the Tax File • Export the printout of the declaration to the document management (DMS) • Adjust the worksheet codes as well • Send the correction entries to the accounting department
